

Medical Billing Services

InfoVision21

InfoVision21 with 10+ years of experience offers Business Process Outsourcing solutions. Our process model includes using a mix of on-shore and off-shore resources for cost-effective and highest quality services for various data services *including Medical Billing services*. **Our off-shore unit is ISO 9001 compliant.** InfoVision21's value-added processes focus on timely and accurate submission of bills and rigorous follow-up by following a state-of-the-art time tested revenue cycle management.

The salient features of InfoVision21's Medical Billing Services are:

Experienced Medical Billing personnel

InfoVision21's highly qualified and certified personnel in the fields of Medical coding and billing strive constantly to deliver quality output.

Enhanced Revenue generation

InfoVision21's streamlined billing process and thorough follow-up lead to very low denials/rejections and save precious time by shortening the case life cycle.

Data security

InfoVision21's use of Virtual Private Networks and secured FTP servers for electronic transmission of data provide maximum security to client's data.

Employee confidentiality

Thorough Employee pre-recruitment checks and post recruitment compliance procedures secure **Infovision21's** confidentiality in data and related client's information.

HIPAA compliance

Strict compliance with HIPAA procedures and guidelines by employees is the lifeline of our services. Mandatory periodical employee training is carried out to keep them abreast of the latest developments in HIPAA procedures and guidelines.

Technology

InfoVision21's state-of-the-art hardware and software enable our clients to derive maximum mileage in comparatively less amount of time and money.

Customizability

InfoVision21's medical billing services are customizable as per the client's requirements. Our services are scalable and adaptable to any business type, either large scale, medium scale or small scale, group or solo.

Quality

InfoVision21's medical billing services follow quality as its primary commitment. Strict adherence to HIPAA guidelines and internationally accepted medical billing principles and procedures help us in achieving it.

InfoVision21's services are competitive, aimed at maximizing our client's revenue and completely enabling them to concentrate on their core functions. Our services also help our clients in reducing their overhead costs, there by increasing their profit margin substantially.

Our highly qualified, experienced and trained personnel coupled with state-of-the-art systems and software, strive to achieve more satisfaction for physicians as well as their patients..
